

## For Immediate Release

November 21, 2008

### CONGRESS COMMITTEE

MOHAMAD HUSSEIN  
Congress Chair

### TECHNICAL PROGRAM CO-CHAIRS

J. BRIAN ANDERSON  
University of North Carolina, at Charlotte

MOHAMAD HUSSEIN  
GRL Engineers, Inc., Orlando, FL

### TECHNICAL PROGRAM COMMITTEE

DAN BROWN, Chair  
Auburn University, Auburn, AL

ALLEN CADDEN  
Schnabel Engineering, West Chester, PA

WILLIAM CAMP  
S & ME, Inc., Mt. Pleasant, SC

MAGUED ISKANDER  
Polytechnic Institute of NYU, Brooklyn, NY

PAUL MAYNE  
Georgia Tech University, Atlanta, GA

JEFF MORGAN  
Subsurface Constructors, Inc., St. Louis, MO

SAMUEL PAIKOWSKY  
University of Massachusetts at Lowell

### CONGRESS PROCEEDINGS EDITORIAL COMMITTEE

MAGUED ISKANDER, Chair  
Polytechnic Institute of NYU, Brooklyn, NY

MOHAAMAD HUSSEIN  
GRL Engineers, Inc., Orlando, FL

DEBRA LAEFER  
University College of Dublin, Ireland

### EXHIBITIONS COMMITTEE

JOE PATTERSON  
TEI Rock Drills, Portland, OR

STEVE HALL  
Pile Driving Contractors Association, Orange Park,  
FL

MICHAEL D. MOORE  
ADSC Headquarters, Dallas, TX

### SHORT COURSES CO-CHAIRS

SARAH GASSMAN  
University of South Carolina at Charleston

WILLIE NeSMITH  
Berkel & Co. Contractors, Birmingham, AL

### MANAGEMENT COMMITTEE

S. SCOT LITKE, Chair  
ADSC Headquarters, Dallas, TX

CAROL BOWERS  
Geo-Institute of ASCE, Reston, VA

JOHN DURRANT  
American Society of Civil Engineers, Reston, VA

STEVE HALL  
Pile Driving Contractors Association, Orange Park,  
FL

JAN HALL  
ADSC Headquarters, Dallas, TX

# Geo-Industry Congress Will Prepare You for the Economic Turnaround

The **2009 International Foundation Congress and Equipment Exposition (IFCEE '09)** is a joint conference sponsored by ADSC: The International Association of Foundation Drilling, ASCE's Geo-Institute, and the Pile Driving Contractors Association. To be held in Orlando, Florida, March 15-19, 2009, this conference will be the largest geotechnical engineering and geo-construction event ever held, anywhere. The 52 technical and business management presentations will enable you to take advantage of the infrastructure-related economic turnaround that is sure to come. In these difficult economic times, it is all the more important to have the intellectual and physical tools that will guarantee that you will be well positioned to succeed in the future. Equipment from all over the world will be on display to show you how to maximize your efficiency and productivity. With the newest, state of the art foundation construction machines, confirmation testing equipment, and innovative materials you will be able to work smarter and faster thus gaining a competitive edge in the design and construction marketplace.

Keynote speaker, USACE Major General Don Riley, will share the U.S. Army Corps of Engineer's plans for addressing the needs of the nation's infrastructure, which is certain to get priority attention as part of any economic stimulus program. Internationally renowned experts will speak directly to the issues of forecasting how, where, and when the world's economies will regain momentum specifically as it relates to the geo-industry. Fifteen of the world's leading professional geo-industry organizations will be represented at the Congress.

The Congress will feature ASCE's prestigious Terzaghi and Peck Lectures, as well as the annual meetings of the ADSC, Geo-Institute, and PDCA.

IFCEE '09 will offer the best professional advancement value available anywhere as you will be able to see, learn, and share the latest technical information in one place, at one time.

For a detailed Congress program preview and for registration information, visit the IFCEE'09 website: [www.IFCEE09.org](http://www.IFCEE09.org).
